

JAHAIRA FLORES

Chicago, IL | (312) 678-4558 | jahaira@umich.edu | LinkedIn | Portfolio

EDUCATION

University of Michigan, Ann Arbor

August 2020 - August 2024

B.S. Computer Science, Minor in UX Design

Coursework: Data Structures and Algorithms, Web Systems, Database Management, UI Development, Computer Security

Involvement: GEECS, SHPE, Codepath, Code the Dream (React, Node, Practicum)

RELEVANT EXPERIENCE

Software Developer Trainee - Code the Dream | Remote

November 2025 - Present

- Completed 8 months of React and Node/Express training focused on component architecture, state management, RESTful API development, and database integration.
- Serving as a front-end developer on X-Stitch, a 5-person Agile team practicum building a full-stack CRUD app that converts user photos into cross-stitch patterns.
- Coordinate sprint planning, issue tracking, and code reviews using Jira and GitHub as part of a 5-person Agile development team.

Data Processor - Neumo | Chicago, IL

March 2026 - Present

- Transfer large datasets using FTP/FileZilla and execute scripts to generate document counts and processing metrics.
- Utilize Microsoft Excel and internal tools to conduct QA reviews on digitized records, maintaining accuracy and meeting client standards.

Web Developer - Next Level Society | Chicago, IL

October 2025 - January 2026

- Rebuilt NLS's WordPress site to enhance accessibility and streamline user experience, built as a replacement for their outdated Google Sites platform.
- Translated stakeholder design requirements into functional, accessible layouts tested across desktop and mobile breakpoints.
- Delivered a redesigned digital presence for a nonprofit serving underrepresented youth across four Chicago neighborhoods (Chatham, Englewood, Roseland, Garfield Park).

Adobe Creative Apprenticeship - General Assembly | Remote

June 2025 - September 2025

- Completed a 13-week hands-on program exploring the intersection of UX design and generative AI, mentored by Adobe professionals.
- Designed AI-enhanced visuals and marketing assets in Photoshop, Illustrator, and Firefly, using prompt-based techniques to cut creative production time.
- Prototyped interactive layouts and AI-assisted storytelling experiences, applying UX principles to improve engagement and visual flow.

Data Analytics Fellowship - COOP Careers | Chicago, IL

February 2025 - June 2025

- Completed a 16-week apprenticeship in data cleaning, transformation, analysis, and visualization using SQL, Python, and Tableau.
- Cleaned and restructured raw ad performance data to identify high-cost, low-conversion segments, surfacing campaign optimization opportunities.
- Developed 3 data-driven audience personas from behavioral trends and performance metrics to inform targeting strategy.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C++, SQL, HTML, CSS

Frameworks & Libraries: React, Node, Express, Flask, Django, Tailwind

Tools: Git, Jira, RESTful APIs, Docker, Figma, WordPress, FileZilla

PROJECTS

X-Stitch | React, JavaScript, Node, Express

July 2026 - In Progress

- Led front-end development for the project, designing the UX in Figma and building the landing page, registration/login flow, legal pages, and pattern edit page in React.
- Managed form and authentication state using React's useState/useContext and integrated REST API endpoints to support user registration and login.

NOVA - Luxury Retail & Style Editorial Platform | React, TypeScript, Node, Express

June 2026 - In Progress

- Developing a full-stack luxury retail site combining e-commerce with an editorial platform focused on seasonal color and style trends; currently building the React/TypeScript front end, with the Node backend planned next.
- Architecting a reusable React/TypeScript component library to support product browsing and editorial content across the platform.
